## MORE QUALITY, LESS COST.

The affordable all-in-one with quality photo printing features

# WHEN YOU NEED AN AFFORDABLE ALL-IN-ONE

The new Canon MPC 190S is your ultimate multi-tasker with superior photo quality, versatility, and affordability. Its exceptional **photo-quality colour printing**, with up to a high resolution of **2400 x 1200dpi**, is capable of producing flawless images with refined colours and precision, beyond your imagination. This compact beauty prints, copies and scans with top-notch efficiency and speed, performing at its best to give you stunning **borderless photo prints and copies**. So if you're looking for a machine that does it all, without hurting your pocket, count on the MPC 190S.

## THE BEST IN PHOTO QUALITY AND SPEED

Using Canon's New "MicroFine Droplet Technology", microscopic 5pl ink droplets are ejected at high speed to ensure the accuracy of dot placement. It refines colour, precision and details for consistent photo grade quality. Plus, with up to **2400 x 1200dpi** resolution, the MPC 190S can produce sharp, high-definition prints. When you're in a hurry, print monochrome documents at a quick **14ppm** and colour at only **10ppm**.

## FLAWLESS COPIES ON THE GO

Trust this copying professional to produce beautiful **borderless** colour copies at **1200dpi** or crisp monochrome copies at a sharp **600dpi**. And with no waiting time, you can have colour copies at a quick speed of **10cpm**, and monochrome documents at only **14cpm**.

## HAVE FUN WITH OUR FLEXIBLE MEDIA

Enjoy printing your very own borderless photos with our variety of paper media ranging from A4 or 4 x 6" (4R), you will have more room for creativity.

## SCANNING TO PERFECTION

Equipped with Canon's **Contact Image Sensor (CIS)** technology, the MPC 190S can execute an extensive range of scanning tasks, like converting prints, photos, and documents to high-resolution digital files. Its **optical resolution of 600 x 1200dpi**, can be enhanced to a sharp **9600dpi**. Scanning multiple photos is also possible with the **Multi-Photo mode**, enabling users to scan several photos simultaneously with a separate file name for each photo.

## EASY-PHOTOPRINT PLUS

This innovative retouching software works in conjunction with Easy-PhotoPrint 2.0. It is specially designed for "Red-Eye Correction" and "Digital Face Smoothing", which reduces the appearance of freckles and wrinkles, thereby giving skin a naturally flawless touch.

Red-Eye Correction

Digital Face Smoothing

## EASY-WEBPRINT 2.0

Easy-WebPrint

Canon's own webpage printing solution, now with more functions:

- Auto-link Printing – multi-links can be printed
- Manual Content Size Adjustment – for economical printing
- Print Menu Display by right-clicking
- Selected Frame Printing – only selected frames can be printed
- Grayscale Printing – increases printing speed

Grayscale Printing

## SUPERB SOFTWARE SOLUTIONS FOR PHOTO PRINTING

The MPC 190S comes with a range of software that will make it simple for you to adjust and enhance photo quality, and print brilliant digital photos. This includes **Easy-PhotoPrint 2.0**, **Easy-PhotoPrint Plus 1.0** and **Arcsoft PhotoStudio 5.5**. In addition, the **Easy-WebPrint 2.0** software will eliminate the hassle of Web printing by automatically formatting your pages to print properly in full colour, without trimming off the right hand margin.

## EASY-PHOTOPRINT 2.0

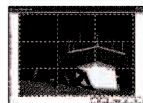

An exceptional photo printing software, the Easy-PhotoPrint 2.0 has a user-friendly interface, with a simple operation method to produce quality photo prints. It also supports Exif Print 2.2 and YCC Colour Space for accurate colour reproduction.

### New Features

#### Sample Image Trimming Using "The Rule Of Thirds"

**Original image**  
A typical composition with a centred photographic subject

**Trimming in progress**  
While the dotted lines are displayed, dividing the screen into three parts vertically and horizontally, the subject is moved to the upper-right intersection.

**Trimming complete**  
Make your subject appear more dynamic by clearing a space in front of the line of movement.

### Supports Exif Print

Exif Print

### Supports YCC Colour Space
